

Chapter 20 Children's Health and Safety

Section 20.2 Accidents and Emergencies

 **Test Prep**
Reviewing Strategies

Directions Read the reviewing strategies. Then answer the questions.

Reviewing Strategies
<ul style="list-style-type: none">• Create a study checklist for all the material on which you will be tested. Use your notes, text assignments, handouts, and past quizzes and tests.• Use the checklist to break the review material into smaller chunks.• Create a visual image, such as a concept map of the important ideas and their relationships to each other.• Make an audio recording of the important notes and listen to it while you take walks.

1. How do you treat a child's nosebleed?

2. Why should you wear disposable gloves when giving first aid to a bleeding child?

3. In what cases should you seek medical attention for a cut?

4. In what circumstances would you seek medical help for a splinter?
