

DISCOVER EDUCATION CAMP

Diversity Matters

Take part in fun and meaningful activities exploring becoming a teacher. Work with other high school students and UNL professors appreciating the challenges teachers face and the joys they experience.

You will engage in dialogue with real teachers, do some fun role playing activities, have a chance to interact with children for part of the day, watch inspiring documentaries about current school issues, and take part in deep discussions about diversity in education.

Who

Any Nebraska high school student
(in grades 10-12) interested
in exploring a future career
in Education

When

June 10-15, 2018

Where

Come to Lincoln for our
week-long residential camp on the
University's beautiful campus
