

Español 1 Review: ¡Avancemos! Preliminary Chapter

Okay, time to see what you really remember. Using the Preliminary chapter of ¡Avancemos 2!, you will use your piece of construction paper any way you want (book, folded, big poster, whatever) to organize all of the grammar from the entire chapter. You will have nine different sections, but they will be different sizes so don't divide your paper evenly unless you plan on squeezing some things in some spots and having extra space in others.

You will need to do the following for each section:

1. Using the green "Repaso" boxes, write down the information in a way that makes sense to you. If you like the way they do it in the book and it makes sense to you, that's fine... but if you don't like it or understand it in a different way, put it in your own words.

2. Do the example problems listed on this page in order to provide some examples of how to do each section. Make sure you at least summarize the directions and include the entire problems (not just the answers), so you can actually see some example problems rather than just words written on a poster.

3. IMPORTANT: USE COLOR! Over 65% of people are visual learners, so why not use colors to help you remember things?

Here's what you'll use for each section:

1. Page 4: Repaso, Activity 1
2. Page 5: Repaso, Activity 4 y Para y Piensa
3. Page 8: Repaso, Activity 5
4. Page 9: Repaso, Para y Piensa
5. Page 12: Repaso, Activities 9 and 10
6. Page 16: Repaso, Activity 13 and Para y Piensa
7. Page 21: Repaso, Activity 20
8. Page 24: Repaso, Activity 22
9. Page 25: Repaso, Activity 24

DO NOT LOSE THIS ACTIVITY! IT WILL HELP YOU SHOULD YOU RUN INTO PROBLEMS FURTHER DOWN THE ROAD!
